Dear Tim:

Judy and I are very pleased to provide you with this letter of recommendation.

We have truly enjoyed working with you on numerous occasions over the past five years. As I sat down to write this I was amazed at the variety of work you have completed for us, beginning with the foundation and grading work for our house. You have sprayed and cut our trees, burned our slash and plowed our snow, not to mention rebuilding our access road. Your crew even shoveled our roof once if I recall correctly. Basically whenever we needed to have something done, we knew we could call you and get the work completed on a timely basis.

Based on our experience, you provide quality work, via dependable employees, at a fair price. We can strongly recommend your services—just so you don't get too busy to keep working for us!

Good luck!

Jack T. Pottle
